SLC's Program Development Procedure

Principles:

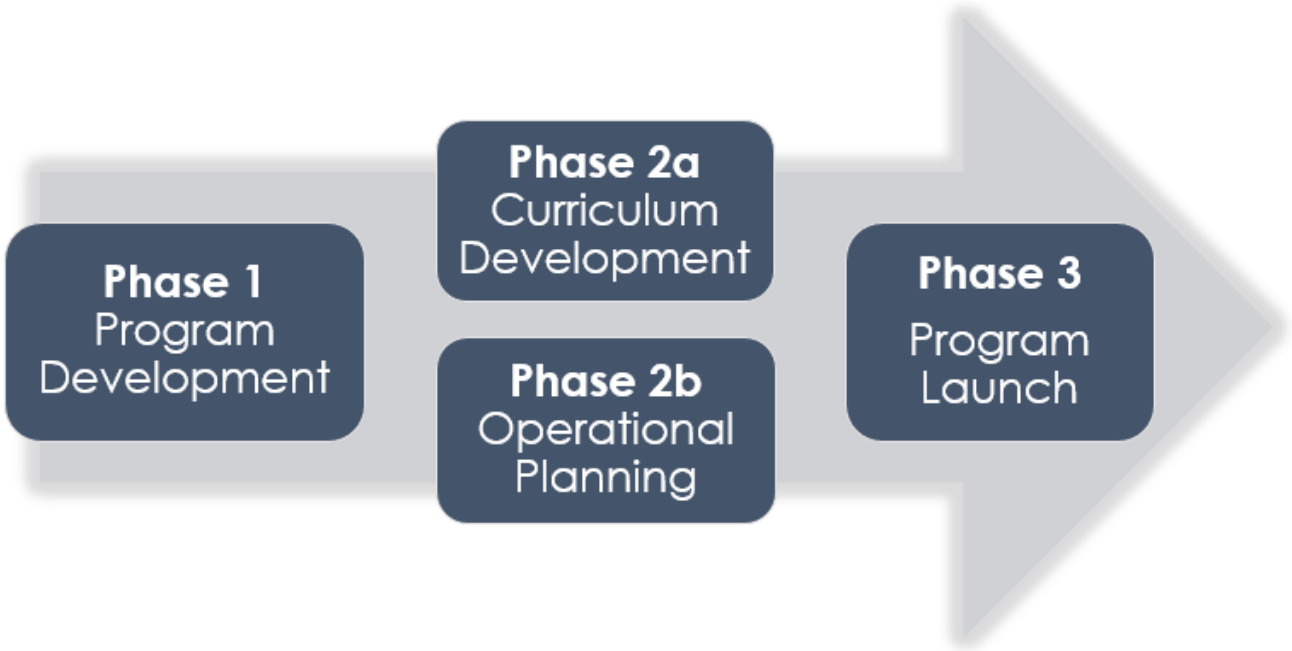

St. Lawrence College needs new programming to be sustainable both financially and as a relevant supplier of post-secondary education to our communities.

The development and assessment of new programs must be an open, transparent, college-wide endeavour that utilizes the specialized skills of various departments across the college.

All programs suggestions must be assessed for labour market demand, student demand and required investment by the college.

Introduction

This document outlines the proposed revision to St. Lawrence College's Program Development Process. The entire program development process, from start to finish, takes approximately two years and is delineated into three phases:

This document outlines the first phase – Program Development – is a process that has 10 unique steps that will be detailed in sequential order. It is important to note however that it is best to understand the process as iterative and as evolving uniquely according to the needs of any given program. Phases can and do overlap as evidenced by the graphic above that demonstrates the alignment and overlap of Phases 2a and 2b.

St. Lawrence College is committed to making our resources usable by all people, whatever their abilities or disabilities. This information will be made available in alternative format upon re request.

Overview

Phase 1: Program Development (summary)

Milestones

1. Program Idea (new – data collection)
2. VPA Team (new)
3. Concept Paper (new)
4. SEM Committee (new)
5. Deans' Council
6. OCQAS-CVS
7. MTCU Funding Applications
8. Academic Council
9. College Executive Team
10. Board of Governors

An internal or external stakeholder completing a New Program Idea Form via the new program idea form triggers the formal process for the consideration of a program idea by the College.

Process Elements

- Program idea submission form (Salesforce)
- Program Developer categorizes idea and cross-references it historical/recent submissions

Recommendation – YES

- If the program idea is new, the Program Developer collects more information and prepares presentation for VPA team

Recommendation - NO

- If the program idea does not move forward, the idea originator is notified by standard letter sent by the Program Developer

Vice President Academic (VPA) Team

Process Elements

- VPA Team reviews ideas and vets them in terms of strategic priorities

Recommendation - YES

- VPA Team assigns an Academic Lead Manager
- VPA Team suggests options for PAC alignment

Recommendation - NO

St. Lawrence College is committed to making our resources usable by all people, whatever their abilities or disabilities. This information will be made available in alternative format upon re request.

This work is licensed under a Creative Commons Attribution 4.0 International License https://creativecommons.org/licenses/by/4.0/.

- If ideas do not move forward, the idea originator is notified by standard letter sent by the Program Developer

Concept Paper

Process Elements

The concept paper provides additional information/data necessary to formally evaluate the program. Concept papers must include the following:

- Brief rationale for the program
- Program title, campus, delivery, and proposed credential
- Program description
- Institutional fit/relationship to Strategic Mandate Agreement (SMA)
- Information from Program Advisory Committee (PAC) meetings
- Competitor data, comparator KPIs, student and workforce demand
- Student and employment demand for program
- Consultation (where necessary)

Program Developer creates a "Concept Paper" that includes:

- Brief rationale for the program
- Program title, campus, delivery, and proposed credential
- Program description
- Institutional fit/relationship to Strategic Mandate Agreement (SMA)
- Information from Program Advisory Committee (PAC) meetings
- Competitor data, comparator KPIs, student and workforce demand
- Student and employment demand for program
- Consultation

Recommendation – N/A

Program Developer brings **all** "concept paper" to SEM

Strategic Management Enrolment (SEM) Committee

The Strategic Enrolment Management Committee's mandate is as follows:

> *Guided by the College values of Students First, Teamwork, Innovation and Integrity, the Strategic Enrolment Management (SEM) Committee [is] an over-arching committee to facilitate integration and knowledge sharing regarding Strategic Enrolment Management. The Committee [sic] leverage[s] data and cross-functional expertise to recommend SEM objectives and targets that are aligned with the College's Strategic Plan and share information to other applicable committees/teams. Strategy and operational management will continue through existing management structures.*

SEM therefore brings together the expertise of all players at the College who are engaged in the student experience and who ensure student success from recruitment to graduation and beyond. This integrated, knowledge-sharing group provides a macro lens to and supportive data and information to the program

St. Lawrence College is committed to making our resources usable by all people, whatever their abilities or disabilities. This information will be made available in alternative format upon re request.

development process. The Program Developer and Academic Lead provide the concept paper to SEM and indicate the areas where more information is necessary to move forward with program idea.

Process Elements

The SEM committee will review "concept papers" and provide additional information in the form of a "report card" for DC review.

The elements of the "report card" will be discussed today.

Recommendation – Yes or No

- Program Developer brings **all** "concept papers" + "report cards" to DC for review

Deans' Council

The concept paper and the report card are integrated into one key document once the data and information are gathered from SEM. This document and recommendations by SEM are then forwarded to Dean's Council for review.

Process Elements

- Program Developer presents concept paper/report cards to DC
- Deans' Council provides formal recommendations

Recommendation - YES

- Program Development will begin crafting a CVS application with a subject matter expert

Recommendation - NO

- If ideas do not move forward, the idea originator is notified by standard letter sent by the Program Developer

Deans' Council review is a pivotal stage in the program development process as Deans' Council effectively provides a red, green, or yellow (needs further investigation) light to the program idea moving forward.

OCQAS-CVS

Process Elements

- Program Developer draft CVS application in consultation with OCQAS Executive Director
- CVS Applications include:
    - VLO/PLO, curriculum map, course descriptions, POS
- Program Developer provides frequent updates to Academic Lead Manager and PAC
- Program Developer and Academic Lead provide update to Board of Governors

Outcomes & Next Steps

- College receives approval of application from CVS
- Program Developer can begin the Ministry application for funding after CVS validation has been granted

St. Lawrence College is committed to making our resources usable by all people, whatever their abilities or disabilities. This information will be made available in alternative format upon re request.

MTCU Funding Application

Process Elements

- Program Developer will create the MTCU funding application
- Program Developer will collaborate with multiple departments to create the "New Program Proposal Operating Budget Worksheet" (SLC financial document)

Outcomes & Next Steps

- College receives approval for ministry funding
- College completes SLC financial documents
- Program Developer & Academic Lead Manager prepare for Academic Council meeting

Academic Council

Process Elements

- Program Developer & Academic Lead brings CVS application, concept paper, SEM report card, Internal SLC financial documents, and Ministry Funding Application (if available) to Academic Council

Outcome & Next Steps

- Academic Council supports and recommends new program to CET

College Executive Team (CET)

Process Elements

- Program Developer submits CVS application, MTCU funding application (associated internal financial documents), concept paper, and SEM report card to CET for approval.

Outcomes & Next Steps

- Program is approved by CET
- Program Developer & Academic Lead prepare materials for Board presentation

Board of Governors

Process Elements

- Academic Lead Manager presents the New Program to the Board of Governors – Academic Sub-Committee
- Academic Lead Manager presents the New Program to the Board of Governors
- Program Developer acts as a support resource during this stage

Outcomes & Next Steps

- Program receives formal approval for BoG

St. Lawrence College is committed to making our resources usable by all people, whatever their abilities or disabilities. This information will be made available in alternative format upon re request.

- Program Developer will finalize the ministry funding application form with the BoG approval for electronic submission
- Program Developer will notify the Academic Lead Manager when all documents have been approved by the ministry before starting external marketing

Phase 2: Curriculum Development & Operational Planning*

A: Curriculum Development

Phase 2a is supported by SCTL and includes the following tasks:

- Creation of Course Outlines
- Creation of Learning Plans

SCTL Supports

- Manager of Curriculum Development
- Curriculum Specialist
- Project Specialist

B: Operational Planning (draft)

Phase 2b is lead by the Academic Lead Manager's school office. These tasks includes items such as:

- Program of Study into PeopleSoft
- Marketing, OCAS, etc...
- Faculty Staffing

College Supports

- Registrar
- Marketing & Recruitment
- School Office/Campus

***Important Note: Phase 2a and 2b can occur at the same time once Phase 1 is complete.**
