Key Terms

Academic Policy

Academic Policies at St. Lawrence College ensure that protocols for grading, advancement and related academic elements are established, reviewed and publicly communicated. Faculty should review the academic policy every year as changes are made on an annual basis and this policy contains important information on assessments.

Credential Levels

The Ministry of Advanced Education & Skills Development (MAESD) outlines specific credentials that can be offered at Ontario colleges.

Essential Employability Skills (EES)

Vocational courses within one-year certificate and two-to-three year diploma programs will be mapped to specific EES in order to ensure all students acquire these skills before they graduate. Courses that are labelled as "general education" and those featured in Local Board Certificates or Graduate Certificates are not mapped to EES.

- Essential Employability Skills (EES) described by the MTCU
- Durham EES Outcomes Guide
- Explanation of Taught, Reinforced, and Assessed by EESs
- Examples of Teaching, Reinforcing and Evaluating EESs

Vocational/Program Learning Outcomes

Programs offered across multiple colleges in Ontario follow the published program standard VLOs (Vocational Learning Outcomes) on the MAESD site. Programs that are unique to our college follow the PLOs (Program Learning Outcomes) which are also ministry approved but not published.

For more information, refer to the Ministry of Ontario Credentials Framework for Programs of Instruction.
